

# NEXTPatient

Modernize your practice with Online Scheduling, Telemedicine and Reputation Management

## Intelligent Online Scheduling

Attract new patients with easy online scheduling.

- Fill your last minute cancellations
- Let patients book appointments after hours
- Real-time availability is pulled from your EHR
- For Urgent Care: show real-time wait times

## Simple Telemedicine

Integrated telemedicine makes it easy to offer a modern experience.

- Let patients choose how they want to be seen: in-person or video
- A perfect tool for follow-up visits
- Collect online payments
- Encrypted, HIPAA compliant video

## Two-way Patient Texting

Real-time communication between patients and your front desk.

- Update patients when you are running late
- Let patients easily contact your staff
- Consolidated dashboard makes it easy to manage multiple conversations
- Increase staff productivity by eliminating wasted phone time

## Online Reputation Management

Automate post visit surveys delivered by text or email.

- Generate positive online reviews (Yelp, Google)
- Proactively uncover service issues before patients post online
- Track overall patient satisfaction, including NPS
